## EDUCATION

### Bennett University

*Bachelor of Technology in Computer Science*  
Cumulative GPA: 9.20/10.0

Greater Noida, Uttar Pradesh, India

Sept 2021 - June 2025

## WORK EXPERIENCE

### Software Developer - SAP ABAP

SAP , ABAP , OOPs , HANA , S4HANA

Smartshift Technologies, Bengaluru, India

July 2025 - Present

- Acted as a **technical analyst**, gathering requirements, providing functional insights, and bridging gaps between business and development teams.
- Conducted **QA, debugging, and testing** of ABAP code and internal processes.
- Optimized SAP modules by developing and maintaining **Smart Forms, Adobe Forms, and custom ABAP solutions** to enhance system performance.
- 1st Place – Ignite '25 Global AI Hackathon (SmartShift, global event).

### Software Developer - SAP ABAP Intern

ABAP , SAP , OOPs , RICEFW , HANA , S4HANA

Smartshift Technologies, Bengaluru, India

Jan 2025 - June 2025

- Gained hands-on training in **RICEFW objects** including Reports, Interfaces, Conversions, Enhancements, Forms, and Workflows.
- Performed **technical analysis of SAP objects**, understanding business logic and customizing solutions as per functional requirements.
- Explored **HANA vs. S/4HANA transformation concepts**, learning performance optimization and migration strategies in modern SAP systems.
- Collaborated with senior developers to debug and enhance ABAP programs for internal client projects.

### Software Developer Intern

Flutter , Firebase , Node.JS , MixPanel , XCode

PredictRAM, Gurgaon

Jan 2024 - March 2024

- Directed app development in Flutter, Figma, Node.js, and Firebase, boosting user engagement by 20%.
- Used Azure DevOps for agile tracking; reduced development time by 30%.
- Improved app performance and load time by 25%.

## PROJECTS AND PUBLICATIONS

- Developed **Encrypto**, a full-scale Android application enabling **secure communication** through **AES encryption and steganography**, ensuring multi-layer protection for confidential data transfer.
- Authored and published an IEEE research paper showcasing the app's **dual-layer encryption model**, implementation architecture, and its efficiency in enhancing **data privacy and security** in mobile environments.
